 Santiago, chile

I am a versatile Full Stack Developer with experience in software development, data analysis, and creating comprehensive IT solutions. I excel in web development, data analysis, and data science, as well as possessing strong software programming skills. I leverage my unique combination of skills to drive effective solutions and contribute to the success of organizations, demonstrating a constant commitment to learning and continuous improvement.

### EDUCATION

#### Data Analyst

January 2024 | Google on Coursera

I participated in a data analysis training program supported by Talento Digital, which involved tasks such as data cleaning, analysis, and visualization.

#### Full Stack Java/JavaScript Developer

August 2023 | Generation Chile/Desafío Latam

Intensive programs focusing on imparting technical competencies in web programming, databases, and software development technologies.

#### Technical Draftsman

July 2020 | C.E.P.A.H

Instruction in drafting in various areas such as architecture and structures, as well as fostering skills in office applications.

### EXPERIENCE

#### BackOffice Developer

August 2023-Present | Banco Falabella

I extracted and analyzed data from databases using SQL on platforms such as BigQuery in GCP, Sigir, and Cloudera to develop interfaces and regulatory reports for the CMF.

#### Java Developer

April 2023-August 2023 | Generation Chile

I participated in the web design of the e-commerce site 'Cerveza Huichahue', collaborating with the team in both Front-end and Back-end.

#### Technical Draftsman

March 2020-January 2022 | Arqu. en tu casa

I have carried out and adapted architectural projects, excelling in time management and critical thinking.
